

I&I GUARD® – MSF

PRODUCT ADVANTAGES

- ✓ CONTAINS **NO SOLVENTS OR TDI**
- ✓ **VERY LOW VISCOSITY**
FOR QUALITY PENETRATION
- ✓ FORMS A **WATER-TIGHT BARRIER**
TO STOP WATER MIGRATION
- ✓ ENCAPSULATES AND
STRENGTHENS LOOSE SOIL
- ✓ **CURE TIME CONTROLLED BY CATALYST RATIO**

PART NUMBER	DESCRIPTION
QUAD-I&I-MSF5	I&I - Migration Foam Grout / 5 Gallon Kit

DESCRIPTION

I&I Guard®-MSF (Soil Stabilization Foam) is a low viscosity, polyurethane injection resin, designed to stabilize soil. When mixed with catalyst and injected, it migrates through loose soil and into below-grade voids. As it comes into contact with moisture in the soil, I&I Guard-MSF reacts and expands to form a rigid foam. The foam encapsulates loose soil, fills voids, and forms a solid, watertight

STORAGE

- Keep temperature of chemicals at 70°F for several days before use
- Absolutely no thinners should be added to this 100% solids system
- Keep drums tightly closed when not in use and under nitrogen pressure of 2 - 3 psi after they have been opened
- Do not store in direct sunlight

PHYSICAL PROPERTIES

I&I Guard-MSF	Side A	Side B
Viscosity	150cps	5cps
Specific Gravity	1.18	0.9
Weight/gallon	9.8 lbs	7.5 lbs
Appearance	Clear, light brown liquid	Clear, light yellow liquid

SAFETY

Always use safety glasses and protective clothing including gloves when using this product.

SHELF LIFE

6 months
