

PipePatch[®] Pillow

Deflates 72" pillow packer
in as little as 18 min

Integrated fast fill valve
bypass regulator to reduce time

POINT REPAIR FOR 15"-72" LARGE DIAMETER PIPE

Permanently repair pipes up to 72" in diameter with **PipePatch Pillow**. This no-dig alternative to costly excavation offers contractors and municipalities an innovative method of pipe rehabilitation that's safe for storm and sewer systems. Tested for a 50-year minimum service life, PipePatch Pillow repairs use silicate resin that exceeds the CIPP Specification ASTM F1216 with up to 6x greater flexural strength and up to 5x greater flexural modulus than competing products. **PipePatch Pillow creates less disruption** for the general public, **making it an ideal solution** for local Departments of Transportation, drains, railway culverts and interceptors.

PART NUMBER	DESCRIPTION
