REHABILITATE ALL PIPES INSIDE BUILDINGS THE PICOTE WAY

Picote is a contractor at heart and a frontrunner in trenchless in-house rehabilitation, including rehab with CIPP and brush coating methods. We have been rehabilitating all pipes from the rooftop to the city sewer with the Picote Method since 2008. This generally includes all branch lines and stacks from 2" to 9".

Technical Resources

Did you know we already have a wide range of information available. Check out our website for Product Manuals and Quick Guides and our YouTube Channel for useful demos and practical videos.

You want in?

The Picote Method has undergone long-term testing and is VTT certified. It allows residents the option of staying in their homes during renovations, which is less costly and less disruptive. Our unique range of tools is set to expand in 2019 offering increased capabilities. Want to learn more?

Coming soon

Full training packages for the Picote Method in Anderson, South Carolina USA, as well as at Picote in Finland and United Kingdom. Take advantage of Picote know-how and years of experience.

HIT THE TARGET WITH THE PICOTE CANNON

Shoot CIPP branch lines with precision and control with a transparent design and compact structure. Enables you to work where cumbersome inversion drums can't to install short liners down to as small as 2". Simply shoot and cure multiple liners with the Picote Cannon Fast Lock System. The Picote Cannon is a light, transparent installation tool, allowing the user to watch the lining process in real time.

PICOTE LINING SOLUTIONS

LINING TOOLS

- > Cannon
- > Curing Caps
- > Liner Glider
- > TY Connection Collar System

INSTALL T OR Y CONNECTION COLLARS WITH EASE

Easily and quickly install T and Y connection collars at the job site with Picote's customized installation tool for 3" to 6" pipes. The flexible system offers all parts needed (Installation Tool & Head, Bladder & Connection Collars). The innovative Installation Tool allows the use of compressed air for the installation process. Available in 3 lengths: 16.4ft, 32.8ft & 49.2ft.

NEW SENTINEL 2.0 MONITOR YOUR LINER WHEREVER YOU ARE

The new Sentinel 2.0 is cloud-based. Monitor your liner on the go. Power failure, changes in water levels or loss of pressure will be notified via text alert. The process will be logged online. Now suitable for steam cure.

LINER GLIDER A QUICK, EASY, MANUAL WAY TO WET OUT SHORT LINERS

It's a great option for small laterals and connections and can be used inside buildings and small spaces due to the compact design, providing there is a flat surface to impregnate the liner. The Liner Glider has color-coded rings to easily identify the five calibration depths for various types of liners.

Renovate old or deteriorated drains and sewers from 1¼" to 12" diameter with the Picote Brush Coating™ System. The unique dual-color coating applied provides a damp-proof, corrosion resistant, wear-resistant and non-corrosive lining. Several coats can be applied within the same pipe. Renovate entire piping systems in residential or industrial properties with minimal disruption, avoiding costly excavation. Coat up to 75ft with the Mini Miller and Mini Coating Pump from 1¼" to 8" pipes. Go further and coat up to 135ft from 3" to 12" pipes with the Maxi Miller and Maxi Coating Pump.

10MM CHAINS

DRAIN

CLEANING

CLEANING CHAINS

Regular Cyclone and Original Chains are now sold as standard around the world for everyday cleaning work. Picote's high-end Premium Chains perform outstandingly even in challenging situations, for example failed liner removal. Specialty PVC Chains are also available for work inside PVC pipes. Options available for 1¼" to 12" pipes.

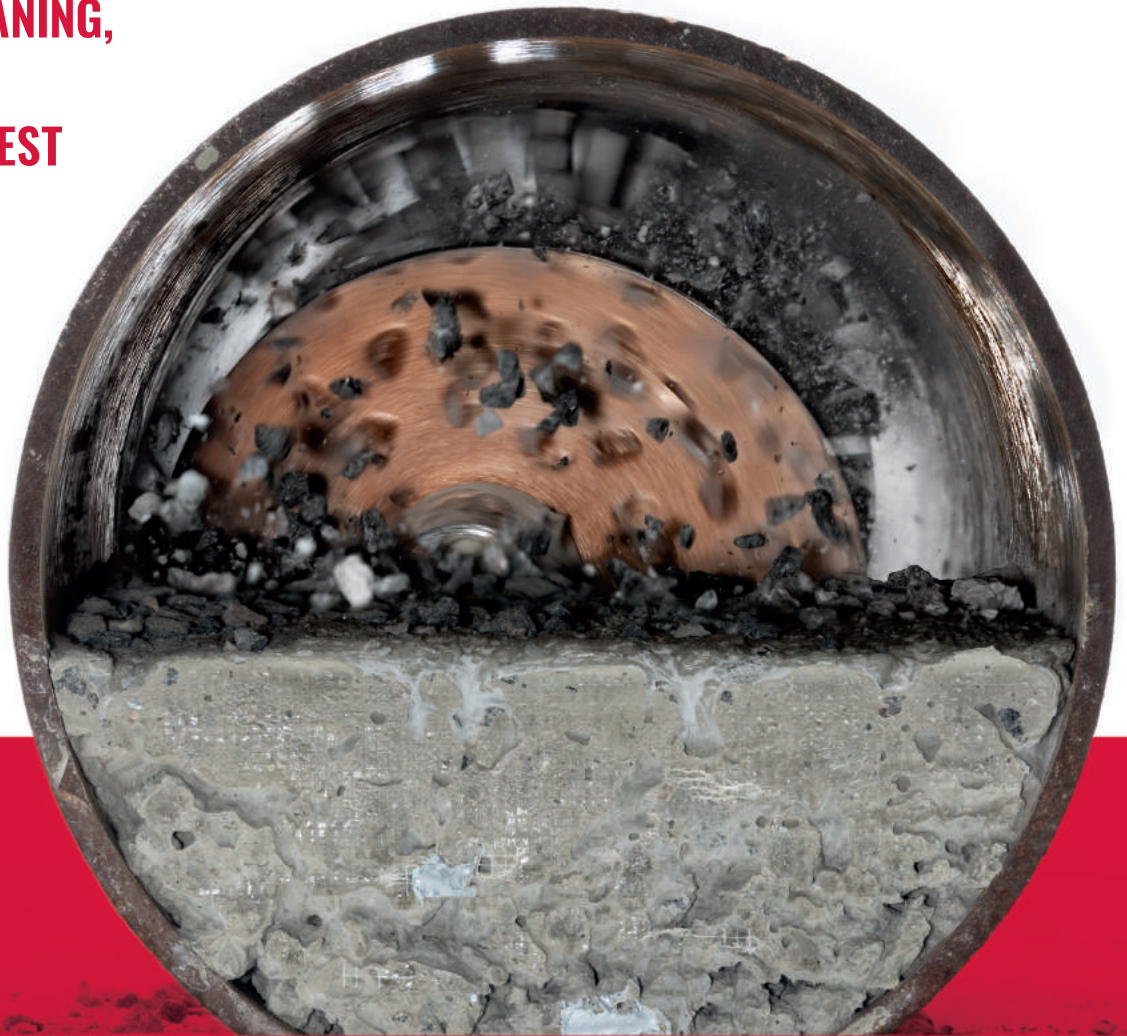

SMART SPIDER

The Smart Spider is a unique tool which is not only highly effective at removing fats, oil & grease, but easily navigates 90° bends even if the base of the pipe or other sections are missing. Simply switch over the legs to use a 4" Smart Spider with the Midi, Super Midi or Maxi Miller for 6" pipe. The Smart Spider is also available in 6", 8" and 9" for the Power+ for ultimate descaling capabilities.

3D Cleaning
Chains

TWISTER CONCRETE REMOVER

Leave no stone unturned with the Picote Twister Concrete Remover. A global problem-solver this tool coupled with the strength of the Maxi Miller (4" and 6") or brute force of the Power+ (6"– 9") saves time and money at the worksite. If there is a gap in the concrete you can add a steering axle to guide the tool to the best position and power your way through the blockage.

MINI SMART SWEEPER

The Mini Smart Sweeper is an incredible descaling tool. Providing increased efficiency in small pipes, this truly is a gamechanger for 2" pipes. Remove tuberculate and grease from bathroom lines and kitchen sinks. The body of the Mini Smart Sweeper is compact and self-adjusting. Navigate challenging bends and P-traps in 2" pipe and at the same time getting it cleaner than ever before!

Available for 2" and 3" pipes the Mini Cleaner and Mini Miller. 4" for the Super Midi- and Maxi Millers.

SMARTER THAN YOU THINK

The patented Picote Smart Cutter™ is a truly groundbreaking and versatile tool that has changed the trenchless industry worldwide. Originally created as a lateral reinstatement cutter for inside buildings, the Smart Cutter™ is also suitable for cleaning pipes from 1¼" to 12". Want more? The Smart Cutter™ is a great tool to remove remaining concrete or failed CIPP lining from the edges of a pipe and is even available for the Maxi Power+ machine.

REINSTATEMENT / CUTTING TOOLS

- > The Smart Cutter™ created in 2009
- > ISTT Product of the Year 2012
- > Most versatile Picote tool 2019

THE TWISTER

Reinstatements inside cast iron, clay, concrete or plastic pipes. Brushes keep tool centered in the pipe. 4", 6", 8", 10" and 12" models available.

NEW

> Twister Express Family
2"–4"

PICOTE LATERAL CUTTERS
A cut above the rest

TWISTER EXPRESS

Even faster reinstatements inside cast iron, clay, concrete or plastic pipes. Brushes keep tool centered in the pipe. 2", 3" and 4" models available.

SPECIAL DRILL HEADS

A must have in your toolbox for fast reinstatements inside cast iron, clay or concrete pipes. Special Drill Head for PVC also available. Models available for 1¼" up to 4" pipes. Use inside P-Traps with the Mini Cleaner.

HOW TOUGH ARE YOU?

Maxi Power+ is a beast of a machine for the toughest of jobs, an extremely powerful and efficient multi-use trenchless system, allowing the use of Picote's innovative tools in 3"-12" sewers. Heavy-duty options for removing failed and collapsed CIPP liners in cast iron, clay and PVC pipes. This powerhouse can also remove concrete, limescale, roots & metal, descale pipes and open laterals fast. The Power+ comes with 59ft of 3/4" shaft that can be extended by 36ft. The power to get the job done.

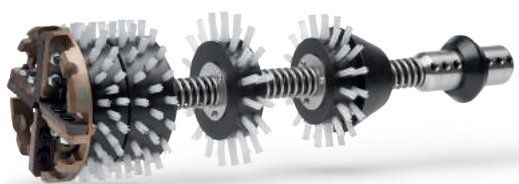

POWER+

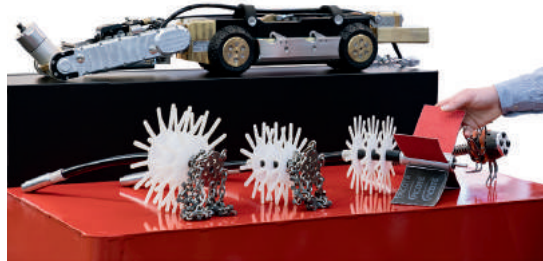

& LINER REMOVAL

Power up with
the Picote Generator

The Power+ offers almost double the power of the Maxi Miller due to its 3-phase 16amp 400v / 4kw motor. The control box can be detached and taken closer to the access point (16.4ft lead) allowing easy access to the control box (emergency stop, speed control).

**Go further than ever before
